

Meet the 2020 Scholarship Recipients

Mackenzie Aitken

I'm going to be studying a Bachelor of Science with a double major in biochemistry and the biological sciences at the University of Canterbury, with the intent of using this to take up research work towards antibiotic resistance solutions or to work on innovations in the food science industry.

Lucinda Edgeworth

I will be studying First Year Health Science at the University of Otago. I then hope to gain entry to study a Bachelor of Pharmacy, to become a Pharmacist. I am particularly interested in studying the effects of medication on people and using this knowledge to help people.

Halena Lagan

I am going to Queenstown Resort College to study a diploma in Hospitality Management. This course is to help me achieve my goal, run my business in events planning. The Manchester Unity For Higher Education is a big step towards my dreams.

Sophie Exeter

I am studying Health Science at Otago University this year and aim to complete a Bachelor of Physiotherapy. I am intrigued by the work of physiotherapists, having observed their practice over the course of several sporting injuries. I hope to improve the lifestyle of people of all ages by increasing their mobility and avoiding unnecessary surgery.
