

### [Meet the 2020 Higher Education Recipients!](#)

The Awards for Higher Education are one way that Manchester Unity Friendly Society can make a difference in assisting both members and the children of members to make a difference in their lives and maybe even the community.

The Winners for the 2021 year are....

**Caylee-Grace Brown**

I will be studying a Bachelor of Engineering with Honors at the University of Canterbury. I believe that it will challenge me on a day-to-day basis to serve and make a difference in not only my community and country, but globally too. Ultimately, I want to participate in the search toward developing new cutting edge, sustainable ways of providing energy for the global population.

**Joella Haglund**

I am an adult student, studying a Bachelor of Education at Laidlaw College. I love my learning adventure and I have made progress in both my academic and personal growth and enjoy the challenge of moments that do not go to plan as these are the best to learn from.

**Kimberley Thomas**

I am currently enrolled in at the Eastern Institute of Technology here in Hawkes Bay. I am studying the Bachelor of Business Studies, and recently have decided to major in marketing and management. I am intrigued by the work of Human Resource managers, and hope to gain this roll in an industry in the near future when I have achieved my degree. I am very grateful to have been awarded the Manchester Unity Award for Higher Education as it will play a huge part in me achieving my goal.

**Raha Walker**

Starting in 2021, I'm studying law and a Bachelor of Arts (Chinese, Development Studies) at Victoria University of Wellington. I hope to practice law as well as work for international organisations such as the Red Cross and the UN.

Applications for the 2022 study year open in July 2021. Keep an eye out in Fraternally Yours or click [here](#).
